CHANCES IN FAVOR OF THE EDUCATED YOUTH

[Special to The Times-Dispatch.]
Boston, November 6.—Lemuel Horbert Murlin, president of Boston University, sponsors the statement that the youth who has had a high school effucation has 300 chances of success to the single chance of the boy who quit when he was in grammar school. Also that the college graduate has 700 chances to one against the youth of the common schools. Dr. Murlin's figures are Jussed on the history of 15,000 eminent Americans, whose lives are written of in the encyclopedia of American hiography. Dr. Murlin also favors co-education.

"Education has no limitations of sex," he said, "except that very naturally a woman will gravitate toward the thing that belongs to her. The Lord only once in a great while gives to a family daughters only or sons only, and I don't see where we can separate Them. A mere accident of gex should not operate against a woman receiving the same education as a man,"

Mr. Neresheimer, who before coming West, was a millionaire diamond merchant in New York, is a former president of the Theosophical Society of America, and lived in the colony at Point Loma for three and one-half years. Mr. Neresheimer left the colony in 1904 and came to Denver, Mrs. Neresheimer was with him in the colony, and it has been reported that it was through her that he severed his relations with it. A New York friend of the family is reported as saying that revelations in the suit of George L. Patterson, of Newcastle, Pa., against Mrs. Tingley to recover \$300,000 left by hig mother, a disciple of the "Purple Mother," led Mrs, Neresheimer to appeal to her husband to quit the colony. Shortly before her death, Mrs. Patterson married Clark Thurston, Mrs. Tingley's chief disciple, and to the ferst Jehovah" formed part of the testimony in the case. Commissioners Are Opposed to Making
Up Deficit by Private
Subscriptions.

Washington, November 5.—The special committee of the Chamber of Commerce on the police and firemen's pension fund met yesterday afternoon at the Chamber of Commerce and took up the discussion of a plan whereby the present defict in the fund might be wiped out and also a permanent fund established, which should be adequate at all times to pay the retired firemen and policemen and their families the pensions due them. Congress, it is understood, will be called upon to make proper appropriation for this fund.

Chairman William F. Gude had a conference withis to the conference within the Cutter of the conference within the Cuter of the conference within the Cuter of the called upon to make proper appropriation for this fund.

Oppose Private Subscriptions.

Commissioner Rudolph announced that the commissioners are opposed to any plan to make up the deficit in the police and firemen's pension fund by private subscription.

It is stated that the District heads are opposed to the private subscription.

It is stated that the District heads are opposed to the private subscription plan for the season that the money obtained from this source never can be accurately estimated. Generous subscriptions might be received after a large fire in which several firemen were killed or injured, it is pointed out, but when the incident is forgetten there would be danger of the subscriptions falling off, thus leaving a deficit such as that now encountered. The commissioners, it is announced, will devote their energies to securing the passage of the police and firemen's relief and retirement fund bill at the coming session of Congress. This bill precludes the possibility of a deficit by authorizing the transfer to the fund, from all licenses other.

CHICAGO MILLIONAIRE
BITTERLY DENOUNCED

Cincinnati, November 5.—Becausa Levi Gilbert, editor of the Western Christian Advocate, a leading Metho-dist paper, scathingly denounced R. T.

torial published here to-day. He writes:

"One of the rankest sensationalists and muckrakers who have forced themselves of late into the limelight is R. T. Crane, millionaire iron manufacturer, who represents, that as the result of his investigations into existing college life conditions, he finds that 95 per cont. of college men are drunkards, profligates or spendthrifts. His criticisms are aimed chiefly at Harvard, Yale, Cornell and Princeton. His sweeping statements bear on the face of them the evidence of exaggeration. It is little wonder that the presidents of the famous institutions should repudiate such slanderous representations with Indignation."
